MAGUETTE THIAW

Linkdin

Engineering student at Toulouse INP – ENSEEIHT (N7), focusing on electrical energy, and holder of a DUT in Electrical Engineering. I have skills in electrical engineering, electronics and automation, strengthened by hands-on field experience.

PROJECTS

Testing and validation of electronic systems

- Taking measurements, analyzing performance, and validating the operation of electronic equipment as part of practical exercises and academic projects.

Sizing of an LV and MV electrical installation

- Cable sizing, protection, and distribution schemes

Controlling a pump using an ATMEGA328P microcontroller

Drinking water treatment system

- Programming, wiring, testing, and system validation

SKILLS

Electrical Engineering

- LV/MV sizing
- Reading and interpreting electrical diagrams
- Wiring and maintenance of electrical systems
- Electrical safety and intervention procedures

Testing, Measurement & Instrumentation

- Metrology and equipment calibration
- Instrumentation and data acquisition
- Implementation of test protocols
- Analysis and interpretation of measurements
- Writing technical test reports

Simulation & Software

- MATLAB, Proteus, Quartus, Schemaplic, Automgen
- PVSyst (solar sizing)
- Dev-C++, CAD/DAD
- AutoCAD
- CMMS (GMAO)
- Excel, Word

Transferable Skills

- Technical documentation
- Word, Excel, PowerPoint
- Preparation of technical files

LANGUES

- French: fluent
- English: B1
- Spanish: A1

EDUCATION

Engineering Degree, 1st year – Electrical and Electronic Engineering

- Toulouse INP – ENSEEIHT (N7), Toulouse, France | 2026 – present

Bachelor's Degree (L3) in Electronics, Electrical Engineering and Automation (EEA)

Université Paul Sabatier, Toulouse, France | 2025 – 2026

- Focus: electrical energy, electrical systems, automation, linear controlt

DUT in Electrical Engineering (GE)

École Supérieure Polytechnique (ESP) , UCAD (Dakar)| 2023- 2025

- Electronics & electrical engineering
- Automation & industrial computing

Scientific Baccalaureate

(Physics-Chemistry and Mathematics) | 2023

PROFESSIONAL EXPERIENCE

Technician Intern – Electrical Distribution

SENELEC, Thiès | 06/2025 – 08/2025 (2 months)

- Took part in preventive maintenance of HV/LV installations
- Read and updated electrical drawings
- Assisted with the connection of electrical equipment
- Applied on-site safety procedures
- Carried out diagnostics of electrical installations

Intern – Solar Systems

SAfrica Féliz, Thiès | 2024 (2 weeks)

- Full sizing of a stand-alone solar system
- Analysis of energy needs and environmental constraints
- Preparation of technical documents

Volunteer – Science Club Member

LETFP, Thiès | 2020 – 2023

- Took part in experimental demonstrations
- Built electrical and electronic circuits
- Worked in a team on educational projects

SOFT SKILLS & INTÉRÊTS

- Rigueur
- Curiosité technique
- Rigueur
- Curiosité technique
- Organisation
- Esprit dêéquipe
- Capacité d'adaptation
